| Modules  | ECTS | Semester | Language | Chair  |
|--|------|----------|----------|--|
| Partial Differential Equations for Life Sciences | 5    | SoSe     | ENG      | Applied Mathematics                            |
| Mathematical Image Processing                    | 5    | SoSe     | ENG      | Data Science                                   |
| Optimization for engineers                       | 5    | SoSe     | ENG      |  |
| Topics in Time Series Analysis                   | 5    | WS/SoSe  | ENG      | Mathematical Statistics and Data Science       |
| Lineare und Kombinatorische Optimierung          | 10   | WS       | GER      | Wirtschaftsinformatik                          |
| Nichtlineare Optimierung                         | 10   | WS       | GER      | Mathematische Modellierung                     |
| Discrete Optimization I                          | 5    | WS       | GER/ENG  | Optimization under Uncertainty & Data Analysis |
| Optimization in industry and economy             | 5    | WS       | ENG      | Optimization under Uncertainty & Data Analysis |
| Robuste Optimierung 1                            | 5    | SoSe     | GER      | Optimization under Uncertainty & Data Analysis |
| Robuste Optimierung 2 (Robust optimization 2)    | 5    | SoSe     | ENG      | Optimization under Uncertainty & Data Analysis |
